The Polish Airwaves: Food Shortage Reported

Special to The New York Times

WASHINGTON, Dec. 30 — Following are excerpts from domestic Polish radio and television broadcasts as transcribed and translated from the Polish by the Foreign Broadcast Information Service, a United States Government agency:

Food Shortages Reported

10 A.M. Wednesday
(4 A.M., Wednesday, E.S.T.)

By 28 December, socialized and private farms delivered to the procurement points just over 90,000 tons of meat. That is, 75 percent of the month's plan.

Since the middle of December, the procurement of livestock has improved. An average of over 5,000 tons is procured daily, but 8,000 tons are required.

In order to supply the population, 1.1 million tons of potatoes have been procured; of this, 134,000 tons have been set aside as winter reserves. This is 300,000 tons short of the amount needed to provide full supplies to the market according to the calculations of the Ministry of Agriculture and Food Economy.

Abuses to Be Investigated

7:30 P.M. Wednesday
(1:30 P.M. Wednesday E.S.T.)

Here is a communiqué on the results of the investigations of cases of abuse of position for material gain:

1. In 1980-81 numerous reports were submitted to prosecutors from various social circles — work forces, social and union organizations and also private citizens. The reports accused numerous persons performing responsible state and party functions. Common accusations involved the use of social property for constructing villas and vacation houses and for fitting out living quarters above the usual standard, accepting expensive gifts and irregularities in the distribution of tokens entitling the purchase of passenger cars.

As a rule the reports were not supported by the necessary evidence. Hence they demanded detailed examination. On examination, some appeared to be untrue and to have been tendentious. Most proved to be true, and the persons who exposed the misdeeds were guided by social interest and a desire to eliminate from public life damaging and negative phenomena.

Numerous inspections had been carried out in order to establish that the accusations are correct. Apart from the investigations to establish the true character of earlier accusation, the Supreme Control Chamber, regional boards of state revenue and financial control and other state control bodies have also made wholesale investigations aimed at disclosing abuses connected with the use of prominent posts in the organs of state and economic administration for personal advantage.

Based on the results of the investigations other materials, the prosecutor's offices began penal proceedings. The complicated character of many cases and also the existing legal procedure required comprehensive expert reports which contributed to the drawn-out nature of the proceedings.

2. The results achieved so far are follows: 263 persons have been charged with offenses. Temporary arrest has been applied to 101 persons. Investigations have been completed on 181 persons. Indictments have been submitted to the courts against 154 persons. Preliminary proceedings against 7 persons have been discontinued. The remaining cases are in the final stage of proceedings and it is expected that these will be completed in January or February of next year. The cases which are currently being completed include the investigations against Communist Party Central Committee former first Secretary Edward Gierek and former Deputy Prime Ministers Tadeusz Wrzaszczyk, Jan Szydlak and Franciszek Kalm.

3. Trials are in progress against 27 persons, as has already been reported by the press. The public will be informed about the completion of proceedings and their results.

Unionists Punished

7:30 P.M. Tuesday
(1:30 P.M. Tuesday E.S.T.)

The press spokesman of the Prosecutor General reports that more cases of persons charged with violating the regulations of the decree on martial law were tried on Dec. 23 at military district courts and provincial courts, under summary proceedings.

The court of the Silesian military district has sentenced Andrzej Pawlik,

head of the transportation and supplies section in the Solidarity chapter in lower Silesia, to 8 years in prison, has taken away his public rights for 5 years and has taken his automobile, after having found him guilty of transporting leaflets in his car containing false information for dissemination which could have aroused public unrest.

The Jelenia Gora provincial court has sentenced Jan Filipek to 3 years in prison and loss of public rights for 3 years, finding him guilty of preparing of proclaiming strikes in the construction materials factory in Boleslawiec.

The Bielesko-Biala provincial prosecutor has issued arrest warrants for Partychusz Kosmowski, chairman of the interfactory founding committee of Solidarity of the sub-Beskids region, and Wacław Szlegier. It is suspected that even after Dec. 13, as members and activists of the suspended Solidarity, they have not stopped their participation in further union activities and have embarked on the organization of protest actions against the martial law already in force.

Soviet Aid Delivered

7:30 P.M. Tuesday

(1:30 P.M. Tuesday E.S.T.)

Continuously intensive transloading of large food consignments from the Soviet Union for Poland has been taking place during the past few days at eastern border stations. Deliveries of meat, initiated during the last 10 days of November, reached peak intensity in the second half of December. So far, more than 32,000 tons of meat have been received at Malaszewicze and Zurawica and have been transloaded from broad-gauge Soviet cars into Polish state railways vehicles. There has been notification that 8,000 tons more meat from the Soviet Union and 2,000 tons from Mongolia will be arriving in the next few days. Canned fish, mandarin oranges, raisins, fruit juices and other foodstuffs from the Soviet Union have also been received and transloaded at the border station. Large supplies of rice have begun in the past few days.

Production Increasing

5:18 P.M. Wednesday
(11:18 A.M. Wednesday E.S.T.)

All Warsaw factories and plants worked full steam from early morning on December 30. The city transport functioned smoothly.

Thursday is the traditional celebration of the end of the year and the welcoming of the New Year. This year Warsaw residents will celebrate only at home, amid their relatives and
